

Ensure a Superior ENTERPRISE STORAGE ENVIRONMENT

Mainline's Enterprise Storage Assessment brings a clear view into your storage infrastructure and ensures your storage infrastructure investment is operating at peak performance and functionality.

Mainline has been designing and implementing enterprise-class storage solutions for more than 20 years. Our Enterprise Storage Assessment development team brought to bear more than 150 years of combined experience, with broad and diverse backgrounds that encompass a wide variety of business and market sectors, administration, architecture, design, executive management, and business ownership.

Our solution experts analyze your storage solution from multiple perspectives which include industry best practices, current and emerging industry trends.

This consultative engagement addresses the five pillars of your storage environment:

1. Storage infrastructure
2. Data Architecture
3. Storage Management
4. Data Protection
5. Staffing

Mainline will work with you to identify and articulate the strategic, business and technical requirements of the storage infrastructure as each relates to the enterprise as a whole.

Mainline will determine the capability of the storage infrastructure to meet the requirements identified by the strategic, business and technical stakeholders.

Mainline will identify and document gaps in meeting the strategic, business, and technical requirements in the Capabilities Assessment.

Mainline will provide the following deliverable documentation:

1. Documentation of current environment
2. Design of vendor neutral future environment
3. Roadmap to future environment
4. Project Plan to future environment

You've seen the analyst projections:

- Data storage consumes 20% of most IT budgets
- Information doubles every 18-24 months
- 90% of the worlds information has been created in the last 2 years
